Professional Summary

Frontend-focused Full Stack Developer with hands-on internship experience and real-world project exposure in React.js, Next.js, Node.js, Spring Boot, and MongoDB. Skilled in building scalable, responsive, and cross-platform web applications. Passionate about solving real-world problems through clean, maintainable code and modern development practices.

Technical Skills

- **Languages:** Java, JavaScript, C, HTML5, CSS3
- **Frontend:** React.js, Next.js, Tailwind CSS, Bootstrap, Angular
- **Backend:** Node.js, Spring Boot, Firebase, PHP
- **Database:** MongoDB, MySQL
- **Tools:** Git, GitHub, VS Code, Postman, Figma

Internship Experience

Full Stack Developer Intern Feb 2025 – July 2025
SapmenC Bengaluru, Karnataka

- Revamped the existing company website by converting outdated layouts into modern, pixel-perfect designs using React.js, Tailwind CSS, and a provided UI component library.
- Recreated frontend pages to closely match new Figma designs, ensuring responsive, mobile-first compatibility across all devices.
- Worked closely with designers and developers to maintain design consistency and fidelity while integrating components within the existing codebase.
- Applied best practices in full-stack development, focusing on scalability, accessibility, and modern web performance optimization.

Frontend Developer Intern Mar 2024 – Sep 2024
Fincelerate Private Limited. Bengaluru, Karnataka

- Developed responsive React components from Figma designs using modern frontend practices and reusable architecture.
- Improved cross-browser compatibility and performance with mobile-first CSS and component-level optimizations.
- Ensured pixel-perfect UI implementation, maintaining design fidelity across multiple devices and screen resolutions.
- Collaborated in weekly sprint syncs to deliver new UI features, resolve rendering issues, and align with product goals.

Projects

FURNIRO – Full Stack Modern Furniture E-Commerce Web Application

Technologies: Next.js, Tailwind CSS, Clerk, React Context API, Iconify

- Developed a fully responsive e-commerce platform for modern furniture shopping with pixel-perfect conversion of Figma UI design
- Implemented dynamic routing, user authentication, product browsing, and cart functionality using React Context API for state management

- Integrated Clerk authentication for secure login/sign-up with conditional rendering for guest vs. authenticated users
- Utilized Tailwind CSS and Google Fonts (Poppins) for modern, accessible styling with full mobile responsiveness
- Designed scalable component architecture with global navbar/footer via layout.tsx and reusable components

Hospital Management System – Full Stack Web Application

Technologies: Angular, Spring Boot, Spring Data JPA, MySQL, Bootstrap

- Built comprehensive hospital management system with role-based access for Admins, Doctors, and Patients
- Developed RESTful APIs using Spring Boot to handle appointment scheduling, user management, and medical records
- Integrated Spring Data JPA with MySQL for persistent data management across Patient, Doctor, Appointment, and Medicine entities
- Designed responsive UI using Angular and Bootstrap with dashboards and interactive forms for all user roles
- Implemented Role-Based Access Control (RBAC) ensuring secure functionality and data protection with real-time validation

Certifications

- **MERN Stack** - Udemy
- **Java Full Stack** - EduBridge Learning Pvt. Ltd
- **Responsive Web Design** - Free Code Camp
- **JavaScript** - Lets Upgrade
- **Complete Web Design: from Figma to Webflow** - Udemy
- **SQL and Relational Database 101** - IBM, Cognitive Class
- **AWS Cloud Practitioner Essentials** - AWS Training and Certification

Education

Bachelor of Engineering in Computer Science

Graduation: 2024

K S School of Engineering and Management, Bengaluru
